

Roof Leak  
Camden, London, NW1

Before: Collapsed ceilings Gnd & 1<sup>st</sup> floors    After: Dried and reinstated

Incident:

- During roof works a flood of water into the building caused ceilings to collapse at 1<sup>st</sup> floor and ground floor level.
- Abberly Property were instructed by the roofing company's insurer to clean, dry and reinstate the property.

Outcome:

- ✓ Abberly Property provided operatives on site to remove waste, clean, sanitise and set up a drying program.
- ✓ The residents remained in occupation so the drying and building works programs were required to be of minimum disruption.
- ✓ When suitably dry, the property was reinstated with high quality building works and redecoration.
